## Statement by Peter Ronai, Esq. and Holly Ostrov Ronai, Esq. on Behalf of Hungarian Student-Victims of July 7, 2010 Duck Boat Fatal Accident

PHILADELPHIA, Jan. 25, 2011 /PRNewswire-USNewswire/ -- On behalf of the families of Dora Schwendtner and Szabolcs Prem, we are in constant contact with the families in Hungary and they remain determined to get to the truth about how and why their only children died. They cannot believe that authorities are still debating whether to permit the duck boats to resume operation - regardless of the location - as long as the vehicles are considered by experts to be death traps. How many deaths by duck boat does it take before the lesson is learned that in their current state of design they're an accident waiting to happen?
